## ENVIRONMENTAL POLICY STATEMENT

We believe that we, as a business, are responsible for operating with a focus on sustainability, and for achieving good environmental performance and practice in our day-to-day operations. Therefore, we commit to minimizing the impact of our activities on our surroundings, and to protecting the environment as an integral part of our business strategy.

It is our policy to:

- 1) Prevent pollution through carbon emissions reduction initiatives, fuel usage reductions, energy usage reductions, and improvements in energy efficiency.
- 2) Fulfil our compliance obligations, comply with environmental legislation, and comply with environmental requirements set by clients.
- 3) Minimize waste arising from our operations, and reuse or recycle as much of it as possible.
- 4) Consider environmental issues through procurement activities.
- 5) Actively involve colleagues and stakeholders in the company's environmental initiatives, and motivate them to carry out tasks in an environmentally responsible manner.
- 6) Ensure that all colleagues understand our environmental policy and Environmental Management System, and that they conform to its standards.
- 7) Enhance our environmental performance through continual improvement of the Environmental Management System, in line with international environmental management standards.
